THE UNDISCOVERED COUNTRY.

Could we but know
The land that ends our dark uncertain travel,
Where lie those happier hills and meadows,
Ah, if beyond the spirit's utmost care,
Aught of that country should we surely know
Who would go?
Might we not hear
The hovering angels' high imagined chorus,
Or catch bedtime, with wakened eyes and clear,
One radiant vista of the realm before us,
With one ray moment given to see and hear,
Ah, who would fear?
Were we quite sure
To find the peerless friend who left us lonely,
Or there by some celestial stream as pure,
To gaze in eyes that here we love so dearly,
This weary mortal coil, were we quite sure,
Who would endure?

A DOUBTFUL MEASURE.—The proposition to make General Grant President in case Mr. Johnson is impeached, does not strike us favorably. The spirit of the old law was better. It designated, after the Vice-President, the President pro tem of the Senate, and after him the Speaker of the House. The meaning of the arrangement was that the civil should be kept above the military power. The fathers of the republic were deeply read in history, and therefore very jealous of military heroes. General Grant has shown himself a patriot as well as a hero; but we fail to see in that fact a sufficient cause for departing in times of civil commotion from the old law of the republic. There are very many statesmen in this nation fitter to fill the Presidential office than the present head of the army, but none so fit for the position he now fills. If the proposition originated in a desire to bribe the support of the General as head of the army, in case the President should resist after conviction, then there must be a doubt as to how the General would act, else the bribe would not have been offered; and that doubt ought to be sufficient to read him out of the list of probable successors in any event. We don't, at first thought, like this proposed remedy for existing evils. It has the appearance of being nearly or quite as dangerous as the disease.—*Daily Alta.*

VACANCIES IN THE SUPREME COURT.—The *Bulletin* says: "Some apprehension has been expressed that vacancies may occur in the Bench of the United States Supreme Court, owing to the extreme age of two or three of the Associate Justices, which would be filled by partisans of the President selected with reference to their retrogressive opinions. Even so intelligent a man as Wendell Phillips has expressed this fear in a recent speech. The fact is that Congress at its last session, after seeing the drift of the President's policy, provided a safeguard for the dreaded contingency. It passed a law which the President approved, enacting that 'no vacancy in the office of Associate Justice of the Supreme Court shall be filled by appointment until the number of Associate Justices shall be reduced to six;' and provided that hereafter the Supreme Court shall consist of a Chief Justice and six Associates, any four of whom shall constitute a quorum. Under this law it is improbable that Johnson, during the remainder of his term, should not be removed, will have any opportunity to appoint a Justice of the Supreme Court."

SEVERAL of the newspapers have perpetrated jokes on the travels of "Sie Transit," whom "nihil fit," and "noctes" head off, the *Yale Courier* retorts as follows: Go, "unum" sculls! You "damnum" sculls! He didn't either. "Sie Transit" drove a "ta ponie tandem temo Ver" from the eastward. He is visiting his "ante," Mrs. "Die Terra," in this city and will stay till "Ortem." Dr. Dignos, the "Tennis" (Terrys), likewise "et super" with us last evening. He "eta beta pi." The pugilist also "cum" with him and "lamb da" man badly in the street He "cuts nos" off, and "noctem flat urna" flounder.

MEDICAL.

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-inventigate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH.

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most valuable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES!

Cannot stay the flight of years, but they can force back an old man's life, and make him young again, and the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once, and the neural concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most valuable. It does not heal internally alone, but penetrates with the most searching effects to the very root of the evil.

SEMI-WEEKLY ENQUIRER.

WEDNESDAY, FEBRUARY 6, 1867.

The proposed amendment to the Constitution limiting the eligibility of any person to election for a second Presidential term of office introduced by Senator Wade, of Ohio, at the last session, has been again submitted to the consideration of Congress. There seems to be a growing confidence in the morality, integrity, patriotism and sound judgment of the people on the one hand, and on the other, a growing distrust by the people, in the disinterestedness, incorruptibility, and moral integrity of men when elected to official positions. The temptation to ambition and official corruption, is so great, and human nature is so weak, that it becomes the part of wisdom to close firmly the door of opportunity for mercenary or popular aggrandizement by limiting the eligibility of the executive to a single term. We believe the political history of the government demonstrates the utility of short terms of office for the legislative and executive branches of the government. Combinations for public plunder and class legislation for the benefit of the few, have less time to perfect their mercenary schemes and get the Federal or State seal stamped thereon.

The power and patronage—the latter of which is rapidly increasing every year—of the President are so great, and the honor so ample, that the bestowment of the office for a single term of four years ought to suffice human ambition; and limited to a single term would be the strongest possible incentive to probity and honor. Especially while chosen from among so many equally competent and equally worthy. To State Legislators and Representatives the hope of re-election, or of higher official positions would be a strong inducement to make their record clear. The extension of the gubernatorial office in this State from two to four years, we think was unwise. "Eternal vigilance is the price of liberty," and the only sure and certain way for the people to maintain that never-ceasing vigilance is to lease their power to their public servants for short terms, at the expiration of which, the power being returned to them, they can, for any non-feasance or misfeasance, discharge the servant, confer the power on another, supposed, at least, to be trustworthy. Besides, we believe full and frequent discussions of public questions before the people, not only beneficial, but highly necessary.

Yes, Whir Nor?—We alluded to the probability of the re-election of Congressman Higby a short time since and advocated the policy of retaining those whom the people had, by actual experience, found to be honest and trustworthy. We notice that many of the Union journals in the State advocate the same policy, with an unimportant exception here and there, and these probably withhold their consent on account of having been bought to advocate somebody else. The remarks of the Folsom Telegraph are pertinent to this matter, and says that there are rumors of a "ring" being formed to "fix up political matters" in this State. We have no doubt this will be attempted, and that the plans are being laid now for that purpose, but the tools that are made use of are so utterly unworthy of the confidence of any respectable man that the injury to be brought about by them cannot amount to a great deal, especially after the "trick" is found out. We do not doubt but that every county in the State will be bid for, but we have miscalculated the sentiments of the American people if they consent to be bought. These "ringers" will soon find out that the people, the bone and sinew of the land, the hard-fisted working men, can and will take the matter into their own hands and give the cold shoulder to these political mendicants who never were known to do anything save concoct plans for their own elevation.

We acknowledge the receipt of a Review of the Mining, Agricultural and Commercial interests of the Pacific coast, by John H. Carmany, comprising an elaborate resume of mining operations; a complete summary of financial and commercial interests; statistics of agriculture, manufactures, etc., prepared for the Mercantile Gazette under the supervision of Titus F. Cronise, Esq. Also, the California Silk Grower's Manual, by Louis Prevost, the pioneer silk culturist of the Pacific Coast, a work of 246 pages, containing valuable suggestions as to the culture of the mulberry and the raising of the silk worm. The works are published by H. H. Bancroft & Co., San Francisco, and for sale by all booksellers.

WILL IT BE BUILT.—Every now and then there is a spasmodic effort made to build a road between Dutch Flat and Little York. Recently the question has been agitated to a considerable extent, but we learn it is liable to fall through from the fact that one party desires the road to terminate at the Railroad Depot, and another in the town at Dutch Flat.

If you had asked the question without accompanying the interrogation with any patronizing trundle we would have endeavored to answer, but, as the road which has created so many "spasmodic efforts" will not materially benefit or injure you we don't see particularly how you are materially interested, or that the knowledge could be made serviceable to you. However, as you have to some extent the "gift of gab" we will state that those interested in the matter are doing their "level best" to carry the project to a successful termination, and don't want any meddling from outsiders. Wait until the road is built and they come up and you shall have a pass over it. That will benefit you.

MASTERLY INACTIVITY.

The thirty-ninth Congress is likely to adjourn without taking any steps towards the practical reconstruction of the seceded States. The noisy, Radical talk of Congress unaccompanied by any practical action tends to create a feeling of mistrust, if not disgust, in the minds of many loyal men. But why hurry this matter of reconstruction? Why be in haste to put political power in the hands of men who but a few months ago were the deadly and sworn enemies of the Government? Does the news we receive from the South, the proscription of Union men, the election of the most offensive rebels to all the offices, the unrestrained maltreatment and murder of negroes, and the mobs of New Orleans and Memphis, furnish any guarantees that these men lately in arms against us have become, all at once, our genuine friends, and earnest supporters of a government which a few months ago they were sworn to destroy? Nonsense. The teachings and prejudices of thirty years are not removed in a day. The great mass of the Southern people are just as hostile now to the Government, to free institutions and to the Northern people as they ever were. How absurd then to reconstruct, at once, the Rebel States and place a vast political power in the hands of these men to be used against us and the Government at the very first opportunity. "Make haste slowly" is a maxim, the truth of which may be well illustrated by the question of reconstruction. There are two classes of people in the South, besides Rebels, to whom might be given the political power—should Congress readmit the Rebel States, namely the loyal whites and negroes. The loyal whites of the South constitute but an insignificant minority of the people—probably not one in a hundred of the whole population.

The leading loyalists there are Northern men by birth who never had much standing or influence in the South; many of them loyal from interested and mercenary motives. After the little experience we have already had with Andrew Johnson, we think any loyal man who would confer political power upon the "loyalty" of the South is hard by the "verge" of insanity or stupidity, "as it were." Besides state governments based upon the loyal men of the South, constituting as they do an insignificant minority of the people, would not be "republican in form" as the constitution requires. They would be as bogus and ridiculous as the state governments Johnson himself organized. The negroes of the South are loyal and patriotic; a few years of freedom and education, with their susceptibilities to learn, will fit them for the full rights of citizenship, but the great mass of them are no more qualified, at present, to exercise the franchise than so many asses or mules. To reconstruct the South and give the controlling power to the late slaves, and they would have it if the rebels did not, would simply be to burlesque republican institutions. Inasmuch as the late rebels lack loyalty, and the loyal whites lack numbers and the negroes lack intelligence, we admire the masterly inactivity of Congress in not reconstructing the South at all. We hope the Rebel States will be let severely alone. The North requires it as a matter of safety, the South desires it as a matter of punishment.

PETTED.—It appears that Senator J. W. Nye has been the recipient of numerous and enthusiastic greetings since his arrival at the Bay City. On Monday, last week, he was invited and delivered a most eloquent and patriotic speech before a meeting held in Union Hall; the same night he was serenaded, and after being introduced by General Miller made another speech to the people, and on Tuesday, the day following, he was invited to a banquet prepared by his personal friends and political admirers at the Lick House. Such is the spontaneous homage rendered those who have proved themselves the friends of human freedom. He left for the scene of his duties on the steamer going East on Wednesday last.

LOOKS BAD.—Los Angeles, as has been truthfully remarked by an exchange, always sustained the reputation of being the Texas of California, and we fear it will even eclipse that unenviable sobriquet, as we see in a recent number of one of the Los Angeles county papers that the female portion of the community (native) not only disregard the manner and custom of acquiring a companion for life but resort to the method adopted by the Porgias in order to accomplish their purposes. A young girl who was anxious to secure the uninterrupted companionship of a man who was repugnant to her parent essayed to drug (poison) the parent but when the moment arrived her heart failed her, the plot was discovered, the parties arrested, and finally discharged from the fact that the mother refused to prosecute her daughter.

THE household of President Johnson is thus organized under a law passed by Congress at its last session: Private Secretary, Robert Johnson; Assistant Secretary, Robert Morrow; Secretary to sign land patents, Edward D. Neill; Aides-de-Camp, Col. W. G. Moore, Lieut. Col. Wright Rives, Col. Andrew K. Long.

RAILROAD MATTERS.—We copy the following from the Plumas Union, a little paper printed up in the northern part of the State where they never hear of anything until it has become old to the balance of the people; not for the worth, or in any way showing the facts in connection with the railroad, but in order that the people who are posted may see how very ridiculous those chaps are making themselves. "Since the fact has been clearly proven that the Dutch Flat route over the Sierras is an impracticable one," is a rich joke. Why, our dear, unsophisticated friend of the Union has been harping upon the "impracticability" of this route since the first shovelful of dirt was taken up at Sacramento, and was, for awhile seriously under the impression that the work would be stopped by the immense crushers he indicted against it, and probably still labors under the hallucination that the Central Pacific Railroad Company seriously meditates taking up the rails from this road and adopting the "Yuba Gap or Big Meadows" routes. We have endeavored to keep you posted, Mr. Union, but it appears you will not regard the truth and are determined to continue groping in the dark. This route has not yet proven an impracticable one as the receipts shown by the last report of the Company fully demonstrates, as well as the ability of the Company to run trains during the entire season with the exception of a week or so when the road which was built on the side of a mountain was damaged by a slide. Do you pretend to say that a road built over the "Yuba Gap" route would not "cave in" during the severe freshets that you are subject to annually; or is the soil in the northern part of the State less liable to the action of water and other natural causes than that on this route? Do you mean to say that you have a nearer route than the one selected; finally do you expect any practical railroad man or capitalist to believe you when you say you have a feasible route at all! Hear what he says about the railroad, we think we see a smile of contempt on the countenances of those posted for the verandah of the Plumas Union man:

Sensible.—The Mountain Messenger has at last got its eyes open in regard to the interests of this section of the State, and is now an earnest advocate of a new R. R. route. Speaking of our next representative in Congress, it says:

"We are inclined to think this matter of a railroad across the mountains will enter largely into the coming fight for Congressional honors, and we think properly so. Certain it is that no man who is not in favor of locating the Pacific Railroad where nature has provided a feasible route, can hope to meet with success."

Rivals.—Since the fact has been clearly proven that the Dutch Flat route over the Sierras is an impracticable one, that it is a swindle, and that a new road is soon to be opened, the friends of the Yuba Gap and the Big Meadows routes are putting in their claims for the location of the road upon their favorite routes. It is all right, gentlemen; the survey will decide the matter as to which is the best, and we have no fear of the result—provided the engineers are not paid to report favorably upon the worst route, and to ignore the best one.

PLEASE send us a copy of that survey when made.

How Now?—Do the cars run regularly on the Dutch Flat railroad? Is there any snow on that route? How many Chinamen were buried in the snow during the last storm? How many inches of snow is there on the summit? How do the "snow plows" work? Will the Sacramento Union please answer.

Although not the Sacramento Union—(wish we were)—we will undertake to give you the desired information. The cars run regularly. Plenty of snow. We gave you the number of Chinamen buried in a former issue. One hundred and eighty and one-third inches.

HOTEL EMBURE.—The Grass Valley Union of the 1st gives an extended account of a hotel d'livry at that place not long since. The boarders had been patronizing the house until the landlord becoming fearful of having to close his doors for the want of "dough" discharged his customers. This, probably, furnishes a solution to the problem, heretofore unsolved, of the immense population of Grass Valley. Dutch Flat could get a large population by boarding bammers, too.

SALOONS.

SEMI-WEEKLY ENQUIRER.

SMASH UP.—On Friday last while Morris' buggy and horses were standing at the depot waiting for the baggage the noise frightened the horses who immediately started off, capsizing the buggy and breaking the top in several places before they could be stopped. We saw the buggy yesterday, however, all right, looking as good as new, sailing toward the depot in quest of passengers and baggage.

FIREMAN'S BALL.—The tickets for the Firemen's ball to take place at the theater in this place, have been issued. Those who attended the last Anniversary ball were greatly pleased with all the arrangements, and we can assure those who patronize the coming ball that every preparation is being made for the comfort and pleasure of the guests.

SENT TO JAIL.—Two Chinamen were sent to the county jail on Friday last by Justice Aubrey. One was sentenced to six months confinement in jail for stealing eggs from the kitchen of the Dutch Flat Hotel. The other was committed to jail to await the action of the Grand Jury for burglary, in breaking into a cabin near Gold Run.

DRAMATIC CLUB.—The first performance to be given by this club will take place at the theater on Saturday evening next. The pieces chosen for the commencement of a series are "Family Jars" and "Turn Him Out." During the evening Miss Phillips will favor the audience with a song and J. B. Clark will recite a comical piece on the crisis. From the programme, we do not hesitate to recommend a general attendance by our citizens, as we believe they will be amply repaid by enjoying a good laugh, and at the same time contribute to a worthy charitable object.

MINING ACCIDENT.—On Monday last while Mr. Joel Brandy was at work in the cut in the Rough and Ready claim the bank caved, catching him under it, and severely cutting his forehead.

YOUTH'S BALL.—The tickets are out for a ball under the management of the juveniles, at the Golden Eagle Hall on Friday evening next. We hope the ball will be a success and that the young folks may amply enjoy themselves.

ENIGMA.—Mark Twain contributes the following enigma to the Californian: "I am composed of sixteen or seventeen letters."

My 16, 14, 3, 4, 6, 9, 15, is something or other, in a general way.

My 3, 11, 7, 14, is something else.

My 9, 6, 4, 10, 15, 11, 8, is the other thing.

My 6, 16, 8, 14, 8, 3, 2, 1, 11, is most anything.

My 5, 3, 9, 14, 7, 3, 1, 11, 5, 6, 16, 2, 13, is most anything else.

My 4, 2, 16, 9, is a good deal like some one of the things referred to above, though in what respect it has baffled even me to determine.

My 9, 3, 8, 12, is—well, I suppose it is, although I cannot see why.

Now, if somebody can cipher out that enigma, he is an able man than I am, notwithstanding I got it up myself. It would be a real favor if some one would try, however. I have figured it at, worked at it, sweated over it, until I am disgusted, and I can make neither head nor tail of it. I thought it was rather neat at first, but I do not like it so well, now that I can find out the answer to it. It looks rather easy at a first glance, but you will notice that the further you get into it the more it widens out. This is my first effort in the enigma line, and to speak the plain truth, I am considerably stunned at my own success. I do not seem to have just got the hang of this sort of thing, somehow. But I offer the entertaining little trifle to your readers for what it is worth—it may serve to amuse an idle year—and it cannot do much harm—it cannot more than drive a man mad, and make him massacre his relations.

AVERAGE DURATION OF LIFE.—In the latter part of the sixteenth century, one half of all who were born died under five years of age—eighteen years being at that time the average longevity. In the seventeenth century, one-half of the population died under twelve years; but in the first six years of the eighteenth century, one half of the population lived over twenty-seven years, and in the latter 40 years one-half exceeded 32 years of age. At the beginning of the present century, one-half exceeded forty years; from 1838 to 1845, one-half exceeded forty-three years; and the average longevity at these successive periods has been increased from eighteen years in the sixteenth century up to the forty four in the nineteenth, by the last reports.

LONDON is 14 miles in length, and 10 in width, and contains a population of about 3,000,000. We call New York and Philadelphia large cities—and so they are—but neither of them is one-fifth the size of London, either in extent or population.

FOR INFLUENZA, ASTHMA, COUGHS, COLDS, AND ALL BRONCHIAL AFFECTIONS, USE HALL'S PULMONARY BALSAM. It never fails to give entire satisfaction.

NOTICE

IS HEREBY GIVEN that at the next regular meeting of the Board of Supervisors of Placer county, California, to be held on the first Monday in February, A. D. 1867, they will receive sealed proposals for the surrender of Toll-Roads, Toll-Trails and Toll-Bridges to said county, such proposals to state the length and location of such road, trails or bridges; the first cost thereof before any travel thereon, and the amount and description of travel thereon, and the receipts for toll per month at the time of offer of surrender, and the amount for which the owner or owners thereof will surrender the same to the county.

By order of the Board of Supervisors.

"JES SO!"—"EXACTLY!"—Solon Shingle said: they were these "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

which are evidences of

Liver Complaint and Dyspepsia.

For a long research, we are able to present the most efficacious and the most remarkable cure for these

horrid nightmarish diseases the world has ever pro-

duced. Within one year over six hundred and forty

thousand persons have taken the Plantation Bitters,

and not an instance of complaint has come to our

knowledge.

It is a most effectual tonic, and agreeable stimulant,

suited to all conditions of life.

The report that it relieves upon minims substances

for its active properties are wholly false.

The original quality and high standing of these

goods will be sustained under every and all circum-

stances. They have already obtained a sale in every

town, village, parish, and hamlet among civilized

nations. Base imitators try to come near our

name and style as they can, and because a poor

article cannot be sold as low as a good one, they find

some support from parties who do not care what

they sell. Be on your guard. See our private stamp

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PEREAULT, Doctor of Medicine of the
Faculty of Paris, Graduate of the University Queen's
College, and Physician of the St. John Baptiste
Society of San Francisco.

DR. PEREAULT has pleasure to inform patients,
and others seeking confidential medical advice, that
he can be consulted daily at his office, Armory Hall
Building, North-East corner Montgomery and Sacra-
mento streets, San Francisco. Rooms No. 9, 10,
11, first floor, upstairs entrance either Montgomery
or Sacramento streets.

DR. PEREAULT'S studies have been almost exclu-
sively devoted to the cure of the various forms of
Nervous and Physical Debility, the results of in-
jurious habits acquired in youth, which usually termi-
nate in impotence and sterility, and permanently
induce all the consequences of old age. Where a
secret infirmity exists involving the happiness of a
life and that of others, reason and morality dictate
the necessity of its removal, for it is a fact that pre-
mature decline of the vigor of manhood, matrimo-
nial unhappiness, compulsory single life, etc., have
their sources in causes, the germ of which is planted
in early life, and the bitter fruit tasted long after-
ward; patients, laboring under this complaint, will
complain of one or more of the following symptoms:
Nocturnal Emissions, Pains in the Back and Head,
Weakness of Memory and Sight, Discharge from the
Urethra on going to stool or making water, the Intel-
lectual Faculties are Weakened, Loss of Memory
ensues, Ideas are clouded and there is a disinclina-
tion to attend to business, or even to reading, writ-
ing or the society of friends, etc. The patient will
probably complain of Dizziness, Vertigo, and that
Sight and Hearing are Weakened and sleep disturbed
by dreams, melancholy, sighing, palpitation, faint-
ness, coughing and slow fever, while some have
external rheumatic pain, and numbness of the body.
Some of the most common symptoms are pimples in
the face and aching in different parts of the body.
Patients suffering from this disease, should apply
immediately to **DR. PEREAULT**, either in person or
by letter, as he will guarantee a cure of Seminal
Emissions and Impotence in six to eight weeks.
Patients suffering from venereal diseases in any
stage Gonorrhea, Gleet, Stricture, Bubo Ulcers,
Cutaneous Eruptions, etc., will be treated success-
fully. All Syphilitic and Mercurial Taints entirely
removed from the system.

DR. PEREAULT'S diploma is in his office, where
patients can see for themselves that they are under
the care of a regularly educated practitioner. The
best references given if required.
Patients suffering under chronic diseases, can call
and examine for themselves. We invite investiga-
tion; claim not to know everything, nor to cure ev-
erything, but we do claim that in all cases taken un-
der treatment we fulfill our promises. We particu-
larly request those who have tried this boasted doc-
tor, and that advertised physician, till worn out and
discouraged, to call upon us.
Low charges and quick cures.
Ladies suffering from any complaint incidental to
their sex, can consult the doctor, with the assurance
of relief.

Female Monthly Pills.

DR. PEREAULT is the only agent in California for
DR. BISHOP'S Female Monthly Pills. Their immense
sale has established their reputation as a female re-
medy, unapproached, and far in advance of every
other remedy for suppression and irregularities
and other obstructions in females. On the receipt
of five dollars, these Pills will be sent by mail or
express to any part of the world, secure from curi-
osity or damage.
Persons at a distance can be cured at home, by
addressing a letter to **DR. PEREAULT**, corner of Sacra-
mento and Montgomery streets, Rooms, 9 and
11, or Box 973, P. O. San Francisco, stating the case
as minutely as possible, general habits of living,
occupation, etc., etc.
All communications confidential.

MEDICAL.

DR. CHAS. H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Exterminator of Special complaints, form-
ing of Lock Hospital, London, Eight Years in
San Francisco, and the last Four Years in San Fran-
cisco.

DR. TOZER'S

Experience is of forty years' standing, and during
that time he has met with unparalleled success in
the treatment of all those diseases generally known
as Venereal or Chronic.
It is impossible here to mention all the diseases,
with which he is familiar; some, perhaps, will not
be out of place. The most formidable, by experiential
evidence to mankind is Self-Abuse. The brain be-
ing the seat of the disease, the whole system suffers
in consequence. I will here enumerate some of the
symptoms, such as those afflicted may be able to form
an opinion in regard to their complaints and seek
advice in time, thereby saving themselves a world of
suffering: Nervous Debility, Loss of Memory, Pains
in the Limbs and Back, Palpitation of the Heart,
Trembling of the Limbs, Headache and an aversion
to general society, especially that of females. There
are a great many more, but these are sufficient, and
should you be suffering from any of them, call on **DR.**
TOZER, and he will cure you in a short time, with-
out any interruption to your business—or state your
case by letter, and there will be no occasion for your
calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one
of my circulars on that disease, and inform yourself
of its terrible results. The worst cases cured in a
few days.

Venereal Diseases.

In all their various forms, either Primary, Second-
ary or Hereditary, completely eradicated from the
system. Your constitution being restored to perfect
health, there will be no occasion for your calling on
your children that terrible disease known as Scrofula
syphilitic disease.

Syphilitic Disease.

As it presents itself on this coast, is of a more for-
midable character than that seen in the Atlantic
States or Europe, arising from the fact of its being
a compound of Spanish, Chinese and Sandwich Is-
land disease. Those of you who have visited the two
countries do not doubt have seen the dreadful effects of
it on the native and foreign population. It requires
altogether different modes of treatment.

The Old Formulae

Of Ricord, Acton and Boissac, are of little account,
except to dry up the disease on the surface, leaving
the poison in the blood, which, sooner or later, will
show itself as a secondary disease in an aggravated
form. Those facts I have learned by experience,
and I can say without boasting, that I have
seen more practice in these diseases than any other
physician in San Francisco, dating as it does, from
1849. It becomes you, therefore, to think well before
you employ a physician. Who is the proper one
to consult? An old experienced one, or one who has
recently settled among you?

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such
as pains in the skin bones, swellings of the differ-
ent joints of the body, running sores, etc., and im-
purities of the blood, known only to myself.
Seminal Weakness.
Should you be afflicted with any of the following
symptoms, such as weakness of the Back and Limbs
Pain in the Head, Dimness of Vision, Nervousness
and General Debility, Loss of Memory, Confusion
of Ideas and Depression of Spirits, Evil Forebod-
ing, Self-distrust, and an aversion to society, consult
DR. TOZER at once, and he will restore you to per-
fect health.

To Females.

When you are afflicted with Weakness of the Back
and Limbs, Head, Loss of Muscular Power, Palpita-
tion of the Heart, Irritability, Nervousness, Ex-
treme Urinary Difficulties, Derangement of the
Monthly Sickness, Sterility, and other diseases pecu-
liar to females, consult **DR. TOZER**, and you will re-
ceive particular attention. Let no false delicacy
prevent you, but apply at once, and save yourself
from painful suffering and premature death.
My rooms are so arranged that there is no danger
of exposure, and of meeting any one save the Doctor.
My FEMALE MONTHLY PILLS were never
known to fail in giving relief to those who have ad-
dressed to me. To be obtained only at my
office.

Price, FIVE DOLLARS—with full directions on
each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, who may desire a part of the
circulars, or who may desire the opinion and advice of
DR. TOZER, can, by submitting a
written statement of their case to the Doctor, receive
all the attention and advice necessary, and at the same
time without the necessity of a personal interview.
All letters strictly confidential, opened and replied to
by the Doctor himself.

A Grateful Acknowledgment to Skill-
ful Gentlemen.

SAN FRANCISCO, June 1, 1886.
Dr. Chas. H. Tozer:—Dear Sir: You will excuse
me for not writing to you sooner. You will please
remember that the individual who called on you for
assistance about a year ago, the roof of my mouth
had completely rotted out, and my palate dropped
and there remained, stopping up the passage so that
I could hardly eat. You remember that you cut it out at
once, which relieved me immediately, and I was
enabled to swallow my food, and in a short time be-
gan to improve. I took your medicine, and followed
your directions for several months. You finally suc-
ceeded in stopping the disease, saving my nose
and upper lip, though you frequently cautioned me
about losing it. I continued to improve until you
finally recommended me to go into the country, and
before going, by your advice, I had a cast taken of
my mouth, in order that I could have a plate made
and use it to enable me to speak as to be understood,
and am now using it. My eternal thanks are due
to you for the perseverance and skill that you dis-
played in my case; and I have to thank you for my
restored health, and even my life, as I was very
near bleeding to death several times from the nose.
I am now in Sacramento City, enjoying good health,
and I shall recommend all my friends to call on you
should they be so unfortunate as to require assist-
ance, and I would advise all persons to avoid cer-
tain scientific doctors in your city, for they will
send them to a land from whence no traveler re-
turns.

With my best wishes for the success of both of
you, I remain, yours, etc.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute
Sacramento Street, below Montgomery, opposite the

Established expressly to afford the afflicted sound and
scientific medical aid in the treatment and cure of
all Private and Chronic Diseases, cases of Se-
cretory and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks
to his numerous patients for their patronage, and
would take this opportunity to remind them that
he continues to consult at his Institute for the cure
of chronic diseases of the Lungs, Liver, Kidneys,
Bladder, and Genito-Urinary Organs, and all pri-
vate diseases, viz: Syphilis in all its forms and
stages, Seminal Weakness, and all the horrid con-
sequences of self-abuse, Gonorrhea, Gleet, Stric-
tures, Nocturnal and Diurnal emissions, Sexual
Disability, Diseases of the Back and Loins, Inflam-
mation of the Bladder and Kidneys, etc., etc., and
he hopes that his long experience and successful
practice will continue to ensure him a share of pub-
lic patronage. By the practice of many years in Eu-
rope and the United States, he is enabled to apply
the most efficient and successful remedies against
diseases of all kinds. He uses no mercury, charges
moderate, treats his patients in correct and humani-
tarian way, and has references to a large number of
respectable and high standing in society. All
parties consulting him by letter or otherwise, will
receive the best and gentlest treatment, and im-
plicit success.

DR. DOHERTY would call attention to the follow-
ing certificates from two of his patients, who, hav-
ing fully recovered their health, desire to make
known their grateful acknowledgments. It will be seen their
statements are fully authenticated by a Notary
Public.

The welfare of society imperiously demand their
publicity and they are given more to warn the un-
happy than to sound the praise of a Physician, of whom
hundreds of like cases can be cited during a prac-
tice of more than thirty years.

Dear Sir: I feel my health so fully
restored, that in common gratitude, I believe I
should make you some written acknowledgment
for your valuable services, particularly as your
case small, for the work performed.

I arrived in this city from the East about one
year ago, and was then suffering from an old case
of Gonorrhea, complicated with Stricture. Being a stran-
ger in this city, and believing those Doctors who
gave such positive assurances of success were ac-
cused, I placed myself in their charge, and con-
tinued under their treatment until I had lost nearly
all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor
I have employed, and the only one that has ever
done me any service. My Gleet is wholly cured,
the Stricture is all removed, and my general health is
better than it has been for years.

In conclusion, I would say to the many unfortu-
nate who require medical advice, if you have any
doubt as to whom you may employ, ask **DR. DOHERTY**
for an index, and you will see me. (I keep store
in this city.) My experience may save you many
dollars.

I would also add that in the early stage of my
disease, I used a large amount of the preparations
advertised as an infallible cure for Gonorrhea, Gleet,
etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L. H.

Seminal Weakness—A Sworn Certificate of a
most Remarkable Cure of Spermatorrhea.

A desire to benefit humanity, and a feeling of
gratitude to **DR. W. K. DOHERTY**, alone induces me
to make this statement. For many years I have
been afflicted with that fearful disease known as
"Spermatorrhea," or Seminal Weakness, the result
of self-abuse, but till 1855 experienced but little
trouble or inconvenience. In that year, however, I
had Seminal Weakness to an alarming extent,
which was soon followed by the most alarming
symptoms of weakness of the back and limbs, pain
in the head, dimness of vision, nervousness and
general debility. My mind, too, was afflicted
with such an extent of morbidness, that I was
averse to society, had evil forebodings and self-
doubts of my life, and was utterly unfitted for any of
the duties of life. I was, in the summer of 1881, I
employed the very best medical talent I could find,
and spent several hundred dollars, but in no
stance obtained more than temporary relief. I had
absolutely concluded there was no relief for me in this
world, but seeing **DR. DOHERTY'S** advertisement, I
thought I would call and see him, as he charged
nothing for a consultation. I had an interview with
DR. DOHERTY at his office, in Sacramento street, and
his fee for treatment was so reasonable, I deter-
mined to try him, though I did not expect much
benefit from his treatment. On the 5th of Decem-
ber last I placed myself under his care in one week
I found myself very much improved, and, now,
after five weeks' treatment, I feel myself thoroughly
cured of all my troubles and in the enjoyment of
the best health. Hoping that my experience may
be of benefit to others similarly afflicted, I sub-
scribe myself,
JAMES JOHNSTON.
Subscribed and sworn to before me, this 15th day
of January, A. D. 1884.

L. H. RANDALL, Notary Public.

To Females.

When a female is in trouble or afflicted with
diseases as weakness of the back and limbs, pain in
the head, dimness of vision, loss of muscular power,
palpitation of the heart, irritability, nervousness,
extreme urinary difficulties, derangement of diges-
tive functions, general debility, vaginitis, all dis-
eases of the womb, hysteria, sterility, and all other
cases peculiar to females, they should go or write
once to the celebrated female doctor, **W. K. DOHERTY**,
at his Medical Institute, and consult him about
their troubles and disease. The Doctor is effecting
more cures than any other physician in the State
of California. Let no false delicacy prevent you,
but apply immediately and save yourself from
painful suffering and premature death. All Ma-
ried Ladies whose delicate health or other circum-
stances prevent an increase in their families should
write or call at **DR. W. K. DOHERTY'S** Medical In-
stitute, and they will receive every possible relief
and help. The Doctor's offices are so arranged
that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, how-
ever distant, who may desire the opinion and ad-
vice of **DR. DOHERTY** on their respective cases, and
who think proper to submit a written statement of
such, in preference to holding a personal inter-
view, are respectfully assured that their communi-
cations will be held most sacred. **DR. DOHERTY**
takes this opportunity of observing, that all letters
are only opened and replied to by himself, and the
latter as promptly as possible.

If the case be fully and candidly described, per-
sonal communication will be superseded, as in-
structions for diet, regimen, and the general treat-
ment of the case (including the remedies), will be
forwarded without delay, and in such a manner as
to convey no purport of the letter or parcel so trans-
mitted. Consultation at the office FREE. Per-
manent cures guaranteed or no pay. Address,
W. K. DOHERTY, M. D.
